CHETAN JOSHI (CJ)

Level Designer | Indie Game Developer.

Udaipur, Rajasthan, India | cj3243850@gmail.com

CAREER OBJECTIVE

Motivated 3D Artist and Game Developer with expertise in Blender and Unity. Focused on creating high-quality stylized assets (Arcane inspired) and optimized game mechanics. Seeking freelance or contract opportunities to contribute to global projects while developing 'TenGen Parkour'.

TECHNICAL SKILLS

- **3D Modeling & Animation: Blender (Low-poly, Mid-poly, Stylized Texturing, Character Setup).**
- **Game Development: Unity (3D/2D), C# Scripting, Movement Systems, UI/UX Design.**
- **Other : C,HTML,Python**
- **Engines & Tools: Godot (Beginner), Canva, VS Code, Git/GitHub.**
- **Operating Systems: Arch Linux & EndeavourOS (High-performance workflow).**

PROFESSIONAL PROJECTS

1. TenGen Parkour (Lead Developer - ThroneLeaf Games)

- **Developing a high-speed parkour game with fluid movement mechanics and stylized 3D environments.**
- **Created 50+ custom 3D assets including urban obstacles, modular buildings, and interactive props.**
- **Designed the entire UI/UX and character controller from scratch in Unity.**

2. Sci-Fi Game Assets & Environment Pack

- **Designed a comprehensive sci-fi pack featuring: Sci-Fi Tower, Combat Robot, Ring Spaceship, and Sci-Fi Storage Boxes.**
- **Optimized assets for real-time performance, ensuring high visual quality on mid-range GPUs (like RTX 2050).**

3. 3D Product Modeling (Perfume Bottle & Tech Props)

- **Created high-fidelity 3D renders for product visualization, focusing on realistic shaders and lighting in Blender.**
- **Modeled complex technical props including Sci-Fi consoles and hardware components.**

4. Run & Fight (2D Action Game)

- **Developed a 2D action game in Unity, focusing on sprite animation and combat logic.**

EDUCATION

- **B.Tech in Computer Science Engineering (2nd Year - 3rd Semester) Techno India NJR Institute of Technology (RTU), Udaipur.**

EXPERIENCE & ACHIEVEMENTS

- **2 Years of Independent Practice: 3D Asset creation and Game Devlopment.**
- **Hardware Enthusiast: Optimized Arch, Ubantu, Nobara Linux for professional 3D rendering and gaming workflows.**
